

Acts of Inclusion

Acts of Inclusion is a group of like-minded students interested in promoting inclusion of people with and without disabilities at BGHS and the wider community. They aim to do this through both face-to-face peer support activities during lunch times and various advocacy activities.

This year, the group hopes to create a short film to be entered in the international Focus on Ability Film Festival (<https://www.focusonability.com.au>), and Videos for Change National Competition (<https://videosforchange.org>). They will also be working towards organising an event celebrating International Day of People with Disability on December 3, 2020 (<https://www.idpwd.com.au>).

The peer support activities run during the second half of lunch on Mondays and Wednesdays in the Library Annex.

A meeting time to develop the films will be established shortly.
